

22" Touch Monitor

English

Experience new productivity with a faytech touchscreen. In addition to mouse control, you can now use your finger to rapidly navigate your work space. Work faster and more efficiently with a new touchscreen.

faytech touch screens offer excellent graphics and touch support in a high quality package. Mount the touch screen on the included stand or take advantage of the VESA-100 bracket on the back to permanently mount your touchscreen

for robust operation.

The high resolution (up to 768p or 1920x1200 pixels) of this faytech touchscreen makes it suitable for a wide variety of applications. With connectors like Video, VGA and DVI you can use the 22" touch monitor in many different environments.

Touchscreen drivers are included for all popular Microsoft (CE, WinXP, Vista, Windows 7), Mac and Linux-operating systems.
